## How best to support me...

- I am opportunistic- if I see something I want I will figure out a way to get it even if that involves climbing or eloping.
- I am learning new words every day- I love it when people repeat the words that I say.
- I respond well to visuals- by using visuals I have learnt new words and have begun verbally asking for the things I want.

- I am getting more independent with toileting but I still need help with changing my pull up- allow me to do as much as I can independently.
